

Download File PDF Cardiac Engineering From Genes And Cells To Structure And Function

#Jenny

Finally I get this ebook, thanks for all these I can get now!

#Rio

Cool! I'am really happy

#Markus Jensen

I did not think that this would work, my best friend showed me this website, and it does! I get my most wanted eBook

#Hun Tsu

wtf this great ebook for free?!

#Che Salsa

My friends are so mad that they do not know how I have all the high quality ebook which they do not!

#Diego Butler

so many fake sites. this is the first one which worked! Many thanks

Molecular Approaches for the Analysis of Gene Structure and Function

1. Cardiac adrenoceptors: model genes
2. Cultured primary cells: heart cells
3. Heterologous cultured cells: model system to study gene function
4. Detection of expressed proteins: anti-sera to native protein or epitope tagging
5. Detection of Protein-protein interactions: Immunoprecipitation, BRET and yeast 2-hybrid
6. The use of Green Fluorescent protein (GFP)
7. RNAi technology: knock down of endogeneously expressed genes
8. Animal models: transgenics and gene knockouts
